Rae Street / Seagreen Singers**

This major U.S. communication and intelligence base supports space communications, data links, military drone information, bomber guidance, missile defence, diplomatic communications, and command and control war fighting functions. It will be a key link in the 'chain' controlling US surveillance, armed drone and special forces operations across Europe, North Africa and the Middle East.

(RAF) USAF Croughton main gate is on the B4031, off the A43, 2 miles North of M40 junction 10, just South of Brackley, Northants.
