Addressing Compliance Gaps in Arms Transfers: Is the Arms Trade Above International Law? – Lausanne, Switzerland

18:30hrs – 20:00hrs Switzerland time

Villa Moynier, 120B Rue de Lausanne

Against a backdrop of escalating global militarisation, WILPF, Geneva Academy of International Humanitarian Law and Human Rights, and the Quaker UN Office in Geneva (QUNO) are hosting a public event to discuss:

The role and responsibilities of States and the private sector actors in the arms trade;

Enduring obstacles to access to justice and accountability in arms transfer decision-making processes; and
The nexus between international arms transfers and serious violations of international legal norms.
Participants will also engage with the priority areas for action identified in the latest OHCHR report on arms transfers (A/HRC/58/41), with a focus on enhancing safeguards, strengthening due diligence obligations, and promoting accountability for the adverse human rights impacts of arms transfers.
For more information, including the link to register for the event, visit the Geneva Academy website:

'Invest in Peace not Nukes' – CND webinar – Global

18:00hrs – 19:00hrs UTC

(Zoom)

Join CND for a webinar to discuss why we must put pressure on the government to reverse course and invest in peace and a sustainable economy, not nuclear weapons and more militarism.
Ahead of a CND demonstration at Devonport Dockyard in Plymouth, CND is highlighting its particular role at the centre of Britain's deadly nuclear weapons system. It services the current generation of nuclear-armed Vanguard submarines, and is a decommissioning centre for nuclear-powered submarines.
The billions being wasted here and elsewhere on nuclear weapons could be spent on social welfare instead, and redirected into creating highly skilled, well-paid jobs that don't threaten people and planet. Join us to discuss the true cost of nuclear weapons – financially, on jobs, and the dangers posed to local populations.

Speakers include:

Alex Gordon, former RMT President

Sophie Bolt, General Secretary, CND

Tony Staunton, Vice-Chair CND

Massachusetts State House

Join us on Tuesday, May 20th, from 12pm to 3:30pm for a day of action at the Massachusetts State House!

The Massachusetts Public Fund is invested in entities involved with weapons of mass destruction (WMD) and climate risks. The focus of the day will be on two bills, one divesting pension funds from entities involved with the manufacturing, producing, or selling of WMD, and the other assessing the public fund investments for any climate risks and divesting the fund from those risks. We want the state to move our money away from unethical systems and reinvest in sustainable, socially-responsible alternatives.

No experience is necessary! Trainings and briefings on the priority legislation, an Act Promoting Responsible Investment (S.767/H.1264), and an act to Eliminate Climate Risk Investments (H.2811), will be provided.

International Women's Day for Peace and Disarmament

In the early 1980s, a group of pacifist feminists from across Europe united to protest the buildup of arms and nuclear weapons. Together, they established 24 May as International Women's Day for Peace and Disarmament.

On this day, WILPFers honour their legacy and that of women everywhere leading the struggle against militarism.

As feminist peace activists from around the world, we continue to demand that governments take immediate action to end the daily threat and impact of weapons on people and communities everywhere.

National Day of Action Against Caltex – Australia

10:30hrs Qld time AEST

Gair Park, Dutton Park, Magan-djin Brisbane

Join us on these stolen lands of the Yuggera and Turrbal people to protest Caltex/Chevron's continued supply of fuel to the genocide.

Chevron is based out of the USA and operates in Australia under the name Caltex. Israel's genocide machine couldn't run without power from Chevron. As Israel bombs hospitals, homes, universities, and UN schools in Gaza, Chevron supplies energy via the operation and co-ownership of two Israeli-claimed gas fields in the Mediterranean.

Beyond generating power, Chevron is also funneling millions of dollars in tax revenues to the Israeli state, directly fuelling Israel's system of settler colonialism and violence against all Palestinians. In 2022, those revenues amounted to over \$462 million.

Chevron has been sued repeatedly for its involvement in violence against Indigenous communities around the world, including at least 13 accusations of genocide and 17 accusations of torture. The company's activities have played a role in the destruction of marginalised people's homes, resources, and livelihoods in at least 30 countries.

We cannot allow for our planet to be made uninhabitable and for Indigenous and marginalised peoples to be attacked and erased by colonial, racist, and capitalist forces. Not in Palestine, not here, not anywhere.

Read more about Chevron's complicity in genocide and the National Campaign against Caltex here:

<https://bdsaustralia.net.au/campaigns/caltex/>

This Saturday 24th May at 10.30am we are meeting in Gair Park before heading over to the Dutton Park Caltex to demand No More Fuel for Genocide!

Gair Park is a small green space between Annerley Rd and Gladstone Rd in Dutton Park. It has a slight slope leading up from the main roads and flat access from Maldon St (off Annerley Rd) in front of the school. Car parking is limited to surrounding streets and parks. Gair Park is a 450m walk from both Dutton Park Train Station and Park Road Train Station and is surrounded by bus stops.

Peace Walk at Pyeongtaek US. Military Base on International Women's Day for Peace and Disarmament – South Korea

10:00 hrs to 12:30hrs South Korea time

Meeting point: Naeri Cultural Park, Pyeongtaek (Naeri 260, Paengseong-eup, Pyeongtaek-si)

- Course: Depart from Naeri Cultural Park -> Part of the bicycle road around Humphreys Base -> Arrive at Naeri Cultural Park (round trip takes 1 hour and 30 minutes)

In May 2015, civil society groups from South Korea and the United States organized a symbolic crossing of the Demilitarized Zone (DMZ) by a delegation of 30 international women peace activists, including Nobel Peace Prize winners Leymah Gbowee and Mairead Maguire.

Their slogan was "A Korean Peninsula without War! A Peace Walk Wishing for a Korean Peninsula of Life, Peace, and Coexistence."

Every year since then, Gyeonggi Women's Association has organized a march to coincide with International Women's Day for Peace and Disarmament on May 24. This year, Gyeonggi Women's Association will commemorate the ten-year anniversary of Women Cross DMZ's 2015 crossing and demand peace on the Korean Peninsula once again. Gyeonggi Women's Association, together with an international delegation from Women Cross DMZ and other peace organizations, will march in solidarity at the largest U.S. military base overseas, U.S. Army Garrison (Camp) Humphreys at Pyeongtaek. We will call for an end to the ongoing Korean War and an end to the conditions of militarism, with particular focus on the fact that war and militarism harm women.

This transnational act of solidarity is particularly timely as democracy is under attack in the United States, South Korea is on the cusp of electing a new president, and growing tensions between the U.S. and China raise the risk of war in Northeast Asia. Through the walk around Camp Humphreys on International Women's Day for Peace and Disarmament, we will come together once again in order to raise awareness about the need for peace on the Korean Peninsula from the perspective of gender equality.

Nationwide Mass Movement to Stop the New Nuclear Arms Race - US

(Webinar) (Teams)

Tue 27 May 17:00hrs – 19:30hrs New York time, EDT

Wed 28 May 19:00hrs – 21:30hrs New York time, EDT

Join us to provide public comment at the upcoming U.S. National Nuclear Security Administration (NNSA) scoping hearing where we need masses of people to oppose NEW plutonium pits, which will mean new nuclear weapons for the next 50 years! Do not be intimidated by the government; we have a right to speak up.

Virtual scoping meeting dates and times:

Tuesday, May 27, 2025, 5-7:30 p.m. ET

Join Meeting: <https://bit.ly/PuPEISMTg1> OR Dial in by Phone: (571) 429-4592. Phone conference ID: 808 821 801#.

Wednesday, May 28, 2025, 7-9:30 p.m. ET

Join Meeting: <https://bit.ly/PuPEISMTg2> OR Dial in by Phone: (571) 429-4592. Phone conference ID: 989 289 432#.

People will have a few minutes to say what they want online, and later they can submit written comments until July 14. Next year there will be in-person meetings for the public to give more comments to oppose new plutonium pits. There will be in-person hearings in Kansas City because our nuclear bomb plant here makes parts dealing with plutonium pits. Plutonium pits are the core or the trigger of a nuclear bomb. This proposal to make 80 plutonium pits per year in New Mexico and South Carolina is not to refurbish or fix up current nukes, but rather to make new nuclear bomb designs, which could bring pressure to resume testing!

We don't need new pits or new nukes; we need to get rid of all of them before we destroy all life on earth; plutonium contaminates the environment and gives people cancer; we need those trillions of dollars of tax money for human needs like housing, health care, education, food.

Peace Vigil at Davis-Monthan Air Force Base – AZ, US

07:00hrs – 08:00hrs Arizona time

Craycroft Road entrance, (at Golf Links Rd) Tucson, Arizona

Why protest at Davis-Monthan AFB?

DRONES:

Air National Guard troops at Davis-Monthan AFB place Tucson squarely on the global battleground, by remotely piloting UAV's (Unmanned Aerial Vehicles) that are firing guided bombs and missiles and killing more civilians than targeted "terrorists" in unnamed sovereign nations. Ground the Drones!

DEPLETED URANIUM:

A-10 warplanes that train out of Davis-Monthan AFB are responsible for the vast majority of radioactive ammunition – estimated at well over 400 tons – used in Iraq in 1991 and 2003-2005.

A recent analysis of targeting data reveals that the toxic ammo was used well beyond its armor-piercing design, and was used again in Syria in military operations against ISIS in 2015.

Payphones for Palestine is a national initiative that encourages people to pick up their local payphone and make a call to their MPs to demand a permanent ceasefire; an end to military, economic and diplomatic ties with Israel; and freedom for Palestine.

Calls from payphones are free across the country so that vulnerable community members can connect to family, friends and services. We're encouraging people to use this vital infrastructure to speak up for the 2 million vulnerable people in Gaza. Payphones are an accessible tool for activism.

Don't Buy Apartheid – Day of Action - Global

All day, your local area

Take action to demand supermarkets stop stocking Israeli goods and Coca-Cola products.

We're calling on all individuals, shops, cafés and restaurants to engage in two key boycott actions to support Palestinians. First, boycott Israeli produce like avocados, peppers, herbs and dates. Second, boycott Coca-Cola and its brands such as Schweppes, Fanta, Sprite, Costa Coffee and Innocent.

When supermarkets sell these products, they are profiting from Israel's colonisation and military occupation of Palestinian land.

On Saturday 31 May, PSC branches are holding protests and stalls at supermarkets across Britain to demand they stop stocking Israeli produce and Coca-Cola, and to ask individuals to join the boycott.

Gambia Youth Peace Forum on Killer Robots – Gambia

09:30hrs – 12:00hrs local time

Venue: American Corner Faraja

The Gambia Youth Peace Forum on Killer Robots is an initiative aimed at educating, engaging, and mobilizing young voices in The Gambia around one of the most pressing global security threats of our time, the Autonomous Weapons Systems (AWS) commonly known as "killer robots".

With artificial intelligence (AI) rapidly reshaping the future of warfare, these autonomous weapons operate without meaningful human control, posing grave risks to human rights, peace and global stability. This forum offers a critical platform for youth to take the lead in advocating for ethical governance of AI and a ban on killer robots.

The forum is an in-person event with about 50 participants expected. It will take place on Saturday, May 31, 2025, from 9:30 AM to 12 PM GMT at the American Corner in Fajara. It will open with a match pass uniting youth in a collective stand against killer robots. This will be followed by an interactive dialogue where young leaders, policymakers, and civil society actors will engage in discussions on disarmament, ethical AI, and the urgent need to ban autonomous weapons. The main speakers are:

Mariama Sanneh

Mariama is a final-year Development studies student at the University of The Gambia, committed to empowering young people and building a culture of peace. She serves as the Administrative Secretary of The Work And Live Association, a grassroots organization addressing youth empowerment and climate change. She is also an active leader in The Ultimate Mentorship Association (TUMA), where she supports the development of young changemakers. In addition, she contributes to national resilience efforts as a Data Collector for the National Disaster Management Agency.

Nyaling Sonko

Nyaling Sonko is the Co-Coordinator of the World BEYOND War Gambia Chapter and a teacher by profession. She holds a diploma in Leadership and Conflict Resolution, along with a certificate in Peace and Conflict Resolution. She is a passionate advocate for peace, women's leadership, child rights and climate action. Her work has connected her with several youth and advocacy networks, including the African Youth Leadership Hub, She Is Girl Foundation and SANYEPD. Her resilience and dedication drive her efforts in building a more just and peaceful society.

Kemo Bojang

Kemo Bojang is a Youth Councilor and Legislator with the Kanifing Municipal Council, where he advises the Mayor on youth affairs. He is also the National Youth Secretary General of The Gambia's largest political party, the United Democratic Party. A Mandela Washington Fellow and YALI alumnus, Kemo holds a diploma in Political Science and International Relations from China Youth University and a BA in History from the University of The Gambia. Kemo co-founded Urban Farmers Gambia and the Bakau Youth Development Association, and was named among the 100 Most Influential Young Leaders in 2021 and 2022. He is widely recognized for his civic activism, including his role in the 2016 "Gambia Has Decided" movement. A mentor and dedicated volunteer, he champions youth empowerment, democratic engagement, and grassroots development across The Gambia and West Africa.

Omar Mboob

Run the 2025 Women's Mini-Marathon for IPSC – Dublin, Ireland

12:30hrs Ireland time

Fitzwilliam Place, Dublin, Ends Lower Baggot Street

Calling all Mini-Marathon runners... would you be interested in running the 2025 Dublin Women's Mini Marathon marathon in support of the Ireland-Palestine Solidarity Campaign?

Two years ago we had 2 runners. Last year our team grew to well over 40 participants all wearing Palestinian themed tops. These we provided free of charge to those amazing women who chose to actively fundraise for the IPSC and raise awareness. Let's do it all over again but in bigger numbers proudly standing by Palestine.

The VHI Mini Marathon is a great way to not only raise funds for us so that we can continue to mobilise people in Ireland to support the political, civil and human rights of all Palestinians, and to work for their national and democratic rights including the Right of Return for Palestinian refugees and their descendants.

Contact: John on fundraising@ipsc.ie to let us know that you are participating. We will put you in touch with others if you like. We are very happy to offer all our active fundraisers a Palestinian top – so just get in touch! We are really looking forward to seeing a vibrant wave of red, black, white and red representing Palestinian solidarity flashing across the finish line on a glorious bank holiday weekend.

We will not give up until there is Freedom, Justice and Equality for all Palestinians.

Go raibh míle maith agat. Saoirse don Phalaistín!

Monthly Meeting: Divest Philly from the War Machine - US

(Webinar) (Zoom)

14:30hrs – 15:30hrs New York time EDT

We're campaigning to divest Philly from nukes. Four of the financial institutions that manage the Pension Board's assets — **Lord Abbett High Yield, Ariel Capital Holdings, Fiera Capital, and Northern Trust** — collectively have billions invested in nuclear weapons. We're urging the Philadelphia Board of Pensions to instruct these asset managers to exclude the top nuclear weapons producers from the City's holdings. Please contact Greta at greta@worldbeyondwar.org for more information and the Zoom link.

Peace & Justice Conversations: Report from the West Bank – Global

(Zoom)

19:00hrs EST New Hampshire; 23:00hrs UTC

Lefty Morrill recently returned from a month with Community Peacemaker Teams in the West Bank of Palestine; a place where the air itself seems to carry the weight of grief and defiance. CPT-Palestine is building partnerships to transform violence and oppression. They support Palestinian-led, nonviolent, grassroots resistance against the Israeli Occupation, through solidarity and advocacy. Through images and stories, Lefty will share what he saw and what he felt. The slow unraveling of a people's dignity, the quiet resistance in everyday life, the unbearable ordinariness of suffering. He will speak of devastation, but also of unyielding hope by the people.

Michael "Lefty" Morrill is the organizing director of New Hampshire Peace Action. He has shown a commitment to building a better future in labor, community, environmental and faith-based organizations. He was the founder of Greyroots Action, the largest network of progressive American elders and the executive director of Keystone Progress, a cutting-edge community organizing and communication program involving dozens of unions and other progressive organizations. He has spoken on policy issues in hundreds of venues in more than a dozen countries.

Promoting Israel in Australia – Australia, Global

(Zoom)

19:00hrs-20:30hrs Sydney time AEST; 10:30hrs UTC

The Influence of the Israel Lobby on Australian Politics and Media

What are the main Israel lobbying groups in Australia? What are their legal statuses? And what is their influence on Government and media?

What is 'hasbara'? How is the concept of 'hasbara' seen and understood by Jews as a civic duty and as a non-political action?

How is Israel Lobby in Australia involved with far-right organisations? To what extent is Zionism an inherently far-right ideology?

What was the Israel lobby's role in the 2025 federal election? How has been the mainstream media coverage of this role?

How authoritative have been the reports on anti-Semitism in Australia? What has been the role of the special envoy for anti-Semitism?

To what extent has the Israel lobby been involved in exaggerating and weaponizing anti-Semitism to silence anti-Genocide activism?

To answer all these questions and more, please join us in this in-depth discussion with Wendy Bacon and Yaakov Aharon.

Wendy Bacon is an independent investigative journalist and lifelong radical activist. She has investigated miscarriages of justice, deaths in custody, News Corp's coverage of climate change, urban developments, police corruption and most recently astroturfing in the 2025 Federal election.

Yaakov Aharon is new to journalism, having come from a background of activism. Yaakov brings unique perspectives to the Palestinian struggle, credited to his political journey away from the Ultra Orthodox Jewish and pro-Israel education of his youth. His research concerns the Israel lobby, Jewish community, party politics, and the arms trade.

‘Invest in Peace not Nukes’ – CND demonstration at Devonport dockyard - UK

12:00hrs – 16:30hrs UK time

Guildhall Square, Armada Way, Plymouth, UK

Join CND for a protest in Plymouth, focused on the Devonport Dockyard, where Britain’s nuclear-armed submarines are serviced!

12 noon assemble on Guildhall Square, Armada Way in Plymouth city centre (an accessible pedestrian walk from the Rail and coach stations) for a march and rally;

From 1pm – an open top bus will take everyone on a tour of Plymouth and its nuclear links

2:15pm assembly at the gates of the Trident nuclear dockyard, Camel’s Head, Devonport.

The Devonport Dockyard is at the centre of Britain’s deadly nuclear weapons system. It services the current generation of nuclear-armed Vanguard submarines, and is a decommissioning centre for nuclear-powered submarines.

Devonport is one of the most socially deprived areas of England. The nuclear dockyard holds back other potential business investment in Plymouth. Green energy is a critical, rapidly expanding industry. The Devonport dockyard could be a major centre for wind and wave turbine construction. The billions being wasted on nuclear weapons could be spent on social welfare, and redirected into creating highly skilled, well-paid jobs that don’t threaten people and planet.

Peace Vigil at Raytheon – AZ, US

07:00hrs - 08:00hrs

Nogales Highway at Hermans Road

Join the Raytheon Peacemakers as we demonstrate against war and those who profit from it.

In April, 2020 the Pentagon named Raytheon (the most profitable division of Raytheon Technologies, or RTX) in Tucson as the sole-source contractor for a multi-billion dollar program to develop and produce the Long-Range Stand-Off (LRSO) missile, an all-new nuclear-armed cruise missile to be launched from the wings of warplanes. Production of this missile violates the spirit and letter of the 2017 United Nations Treaty on the Prohibition of Nuclear Weapons, which entered into force in January 2021.

The wars in Ukraine, Palestine and elsewhere have brought millions of dollars in new contracts for Raytheon weapons. Weapons and endless war are Raytheon's business model. It's commerce, not defense, and all about profit, not security.

The Baltic Sea – a Sea of Peace! – Global

(Webinar) (Zoom)

14:00hrs – 18:00hrs Germany time; 12:00hrs – 16:00hrs UTC

For centuries, the Baltic Sea has been both a region of peaceful trade, cooperation, and cultural exchange—and a stage of confrontation and war. We view with great concern the current militarization and transformation of our Baltic Sea and the Arctic into a NATO frontline, aimed against our neighbor and economic partner, Russia. This militarization is paralleled by an escalating economic war, marked by sanctions and embargoes.

We remember better times—like the 1975 Helsinki Final Act of the Conference on Security and Cooperation in Europe (CSCE) and the “peace dividend” of the 1990s, which gave hope for overcoming axis and bloc divisions and strengthening European cooperation for the benefit of all.

Are EU and NATO power elites preparing a Nordic War 2.0? The devastating consequences of World Wars I and II remind us of what is at stake.

We, the citizens of the countries bordering the Baltic Sea, say once again—as we did in 1945: NEVER AGAIN.

How can the peace movement in the Baltic Sea region promote effective security and a peaceful future?

How can peace-loving people work together to free the Baltic from military grip and transform it into a true sea of peace?

Support the protests at the NATO Summit in Den Haag, The Hague! - Netherlands

CND, as part of the 'No to War – No to NATO' network, is supporting protests ahead of the NATO summit in June.

The crisis in NATO's European heartlands has not prevented NATO's continuing and expanding global role, its military operations, its increasing presence on every continent, its deadly carbon boot print, and its growing list of partners and alliances – shaped to support NATO complicity in the US's anti-China agenda, in its quest to maintain global domination.

The conflict within NATO is accelerating European militarisation, which has dramatically expanded with the Ukraine war.

A massive arms race is now underway, that escalates the crisis and likelihood of war and impoverishes the people.

A counter-summit and protest will be arranged on the weekend of June 21st-22nd – **more information to follow.**

International Protest Against the NATO War Summit – Hague, Netherlands

14:00hrs Netherlands time, CEST

Koekamp, Laan van Reagan en Gorbatsjov, The Hague, Netherlands. Koekamp is a short two-minute walk from The Hague Central Station.

On June 22, 2025, an international protest will take place in The Hague in response to the upcoming NATO Summit scheduled for June 24 and 25 at the World Forum. NATO heads of state will gather to discuss ongoing military strategies and geopolitical policies. This protest calls attention to the increasing militarisation of Western powers and their support for global conflicts, including the ongoing Israeli offensive in Palestine.

This demonstration is organised by the Dutch Counter Summit Coalition for Peace and Justice. The coalition includes a range of progressive and anti-imperialist organisations in the Netherlands, including the Revolutionary Socialist Party and its youth organisation ROOD, De Nieuwe Vredesbeweging, BIJ1, and Stop Wapenhandel.

The protest aims to amplify international voices advocating for peace, justice and solidarity. Participants are encouraged to bring campaign materials expressing anti-war and pro-justice messages.

Koekamp is a short two-minute walk from The Hague Central Station. Parking is available nearby, and public toilet facilities can be found at the station.

This protest follows the Counter Summit, which will take place on June 21 and 22. Attendance at both events is possible, as the Counter Summit will conclude before the protest begins.

CND, as part of the 'No to War – No to NATO' network, invites you to this open meeting as part of the opposition to the NATO summit at The Hague.

The crisis in NATO's European heartlands has not prevented NATO's continuing and expanding global role, its military operations, its increasing presence on every continent, its deadly carbon boot print, and its growing list of partners and alliances – shaped to support NATO complicity in the US's anti-China agenda, in its quest to maintain global domination.

The conflict within NATO is accelerating European militarisation, which has dramatically expanded with the Ukraine war. A massive arms race is now underway, that escalates the crisis and likelihood of war, and impoverishes the people. Join us to discuss how we respond to these challenges.

Peace Vigil at Davis-Monthan Air Force Base – AZ, US

07:00hrs – 08:00hrs Arizona time

Craycroft Road entrance, (at Golf Links Rd) Tucson, Arizona

Why protest at Davis-Monthan AFB?

DRONES:

Air National Guard troops at Davis-Monthan AFB place Tucson squarely on the global battleground, by remotely piloting UAV's (Unmanned Aerial Vehicles) that are firing guided bombs and missiles and killing more civilians than targeted "terrorists" in unnamed sovereign nations. Ground the Drones!

DEPLETED URANIUM:

A-10 warplanes that train out of Davis-Monthan AFB are responsible for the vast majority of radioactive ammunition – estimated at well over 400 tons – used in Iraq in 1991 and 2003-2005.

A recent analysis of targeting data reveals that the toxic ammo was used well beyond its armor-piercing design, and was used again in Syria in military operations against ISIS in 2015.

Demonstration in Ramstein – Germany

All day Fri 27 Jun

12:00hrs – 16:00hrs Sat 28 Jun Germany time CEST

Location: Ramstein Air Base & Demonstration in Kaiserslautern

Join the protest to close U.S. military bases in Germany!

Ramstein is one of the largest U.S. military bases outside the United States and plays a central role in drone warfare, nuclear logistics, and the coordination of military interventions. This demonstration is part of a growing global movement calling for peace, demilitarization, and the end of foreign military occupations.

Why Ramstein? - Ramstein Air Base is a central hub for U.S. and NATO military operations. Protesters have long highlighted its role in facilitating drone warfare, nuclear escalation, and violations of international law. By gathering here, we aim to send a clear message: No more war from German soil.

14:30hrs -15:30hrs New York time (ET); 19:30hrs – 20:30hrs (UTC)

We're campaigning to divest Philly from nukes. Four of the financial institutions that manage the Pension Board's assets — Lord Abbett High Yield, Ariel Capital Holdings, Fiera Capital, and Northern Trust — collectively have billions invested in nuclear weapons. We're urging the Philadelphia Board of Pensions to instruct these asset managers to exclude the top nuclear weapons producers from the City's holdings.

Join us on the 1st Sunday of the month at 14:30hrs-15:30hrs (New York time) on Zoom to learn more about the Divest Philly from the War Machine campaign and how to get involved. Please contact Greta at greta@worldbeyondwar.org for more information and the Zoom link.

Global Day of Media Action to Close All Bases – Global

In February, we came together in powerful solidarity across six continents for the Global Day of Action to Close Bases, with actions taking place at military sites in all corners of the world. From Okinawa to Sweden, Colombia to Cameroon, people stood up to say: these bases must go.

Now, we are preparing for the next wave of global action, the Global Day of Media Action to Close Bases on July 14, and we need your help. We are collecting stories, videos, photos, and articles that show how military bases are impacting

your community, your environment, and your life. Your voice is powerful, and your story can help build momentum for real change.

Need inspiration? Check out our “Top 5 Reasons to Close Bases.” It is a helpful resource to guide your message, whether you are creating a video, writing a testimony, or sharing photos. You can contribute in several ways. Choose the format that works best for you.

How to Submit a Video

We are especially looking for short videos (1 to 2 minutes) to feature on social media, our website, and during upcoming actions. No fancy equipment is needed—just your voice and your story.

Video Tips:

Keep it short and personal, ideally 1 to 2 minutes.

Speak clearly and from the heart. Tell us: How is the military base affecting your life or your community? What do you want the world to know?

Film horizontally (landscape mode), ideally in natural light and a quiet space.

Smartphone videos are completely fine.

How to Submit a Written Testimony

We welcome articles between 500 and 1000 words for our blog and website.

Written Submission Tips:

Share a personal perspective: how have you, your family, or your community been impacted?

Be as specific as you feel comfortable. Your voice adds depth to the movement.

You may reflect on or refer to the “Top 5 Reasons to Close Bases” in your writing.

How to Submit Photos

Photos are a powerful way to tell your story, whether they show a local base, protests, community gatherings, or the natural beauty threatened by militarism.

Photo Tips:

High-resolution images are best.

Include a brief caption or context for each photo (who, what, where).

Make sure you have permission from anyone identifiable in the photo, especially if it will be shared online.

If you would like support—whether it is help filming or brainstorming ideas—a member of the World BEYOND War team is happy to connect with you. Just reply to this message, and we will coordinate a call.

Ready to share your story? Submit your content via this quick form: <https://bit.ly/CloseBasesMedia2025>

Together, we can continue to grow this movement and expose the damage caused by militarism, from environmental destruction and economic injustice to colonial displacement and violence against communities.

To stay up to date with announcements and updates about the Global Day of Media Action to Close Bases on July 14, be sure to subscribe to our WhatsApp channel.

Please share this with other anti-bases activists and organizations who may want to contribute their stories, videos, and photos and participate in the next global day of action.

People's Conference for Palestine: Detroit 2025 - MI, US

Gaza is the compass! This is our guiding principle for the Second Annual People's Conference for Palestine. Gaza keeps our path true: it reminds us of our direction in the struggle and the sacrifices that have been made by the Palestinian people; it exposes the forces that we have to contend with on the path to liberation. For this reason, Zionism and imperialism are waging a continuous genocide on Gaza, and we, the people of the world, will fight at every turn to reject it.

With Gaza as our guide, we aim to convene at this critical juncture to continue building and strengthening a mass movement in North America. Join us to strategize, prepare, and utilize the existing skills and capacity of our movement in this next phase of struggle.

This event is organized by the People's Conference for Palestine. RSVP for more details.

Monthly Meeting: Divest Philly from the War Machine - US

(Webinar) (Zoom)

14:30hrs – 15:30hrs New York time EDT

We're campaigning to divest Philly from nukes. Four of the financial institutions that manage the Pension Board's assets — **Lord Abbett High Yield, Ariel Capital Holdings, Fiera Capital, and Northern Trust** — collectively have billions invested in nuclear weapons. We're urging the Philadelphia Board of Pensions to instruct these asset managers to exclude the top nuclear weapons producers from the City's holdings. Please contact Greta at greta@worldbeyondwar.org for more information and the Zoom link.

An indispensable guide to understanding the Israel–Palestine conflict, and how we might yet still find a way out of it. 'Ilan Pappé is the most original, radical and hard-hitting of Israel's "new historians".' Avi Shlaim, author of *Three Worlds*

The devastation of 7 October 2023 and the horrors that followed astounded the world. But the Israel–Palestine conflict didn't start on 7 October. It didn't start in 1967 either, when Israel occupied the West Bank, or in 1948 when the state of Israel was declared. It started in 1882, when the first Zionist settlers arrived in what was then Ottoman Palestine. Ilan Pappé untangles the history of two peoples, now sharing one land. Going back to the founding fathers of Zionism, Pappé expertly takes us through the twists and turns of international policy towards Israel–Palestine, Palestinian resistance to occupation, and the changes taking place in Israel itself.

What I Want You to Know
(2023)

- .

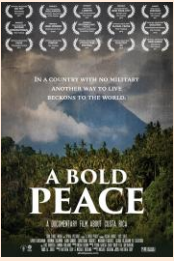

“In less than 90 minutes, the documentary presents the often-overlooked perspectives of 13 American veterans, who critically reflect on their lived experiences in post 9/11 warzones. Interspersed with frequent cuts to raw wartime photos and videos, the film transports viewers in a right-seat-ride alongside veterans as they recount a shared quest for truth and justice in the backdrop of traumatic overseas experiences.

Bold Peace: Costa Rica's Path of Demilitarization / Una Paz Audaz
(2016)

- .

A Bold Peace juxtaposes the national policy of Costa Rica's demilitarization (since 1948-49) with their investment in education, health, and the environment. Pointed parallels and contrasts are made with recent U.S. debates over the national debt, healthcare, the environment and the escalating cost of U.S. militarism. The film features former presidents, Costa Rican government officials, as well as scholars, journalists and citizens of Costa Rica.
